

Windmill Organics Animal Welfare Policy

At Windmill Organics, we're big on animal welfare. Out of our 500 plus products, across all of our brands, 100% are vegetarian and 97.5% are vegan. All of our products are certified Organic, so all animal, dairy and egg ingredients come from farms where Organic Animal Husbandry Welfare standards are followed.

Where we use non-vegan ingredients, we take care to ensure they are as sustainable and ethical as possible. For example:

The milk used is from certified organic farms which follow high Organic Animal Welfare standards.

The Honey used comes from certified Organic beekeepers who follow high Organic Bee Welfare standards (see our separate Bee welfare Policy).

The organic eggs used, are free range and come from certified organic farms which follow high Organic Animal Welfare standards.

Windmill Organics Animal Welfare, in the future.

In our New Product Development, we look to only launch products that are 100% vegan.
